

How you can help the people of Haiti...

Organizations helping on the ground in Haiti are telling us that more than anything they need money to buy supplies.

They say that people who are collecting and shipping unsolicited household donations are **actually doing harm to the recovery effort.**

Give financially to a trusted organization that will have the most impact in Haiti! Don't want to give money? Brainstorm ways you can help!

GOT STUFF?

Have a garage sale and donate the proceeds!

GOT TIME?

Have an event, a bake sale, a benefit! Volunteer in your local community!

WANT SOME MORE IDEAS?

Check out the fundraising section of the Water Missions website for more!
