

# A Great Way to Live United

Acting together, we can all help make the Lowcountry a better place by giving, advocating and volunteering. A great way to start is to invest in your community through Trident United Way. TUV invests in programs and initiatives that measurably change people's lives in Berkeley, Charleston and Dorchester counties.

## Education, Income & Health

How can we improve people's lives in our community? How about by focusing on the building blocks of a good life: education, income and health? Your contribution to Trident United Way, helps your neighbors get a quality education that leads to a stable job, sufficient income to support a family and the ability to maintain good health.

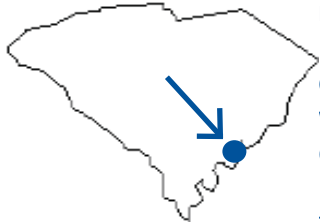

## Two Strategies to Community Change

Your contribution to TUV goes to work in two ways. **First**, it funds programs in education, income and health, plus safety net services and efforts to connect community resources.

**Second**, it's put to work bringing the community together to identify issues and address them. Uniquely, TUV partners with business, government, non-profit, health care, faith communities and individuals to solve community problems.

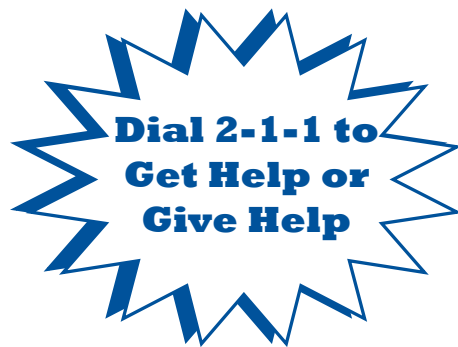

## Staying Local

Your contribution to Trident United Way's Community Care Fund stays right here in the Lowcountry. Local volunteers decide how best to use that money.

## Helping Real People

Trident United Way support for Tri County Project Care saved Susan Morris's life when she had cancer. You did that!
